Declaration of the athletes concerned when they register for the competition. With this Declaration, the participants of the competitions

assure that they do not violate the Anti-Doping Regulations of the USPE and WADA and recognize their personal data processing for basic purposes as part of their consent to participate.

Declarations in question are stored until the results of all carried out doping tests during a championship are available. If the result is negative, the Declaration will be disposed of after the competition. If the result is positive, the Anti-Doping Declaration will be kept until the end of the procedure and, if applicable, the appeals procedure.

Further measures and processing procedures related to the suspicion or prosecution of violations of Anti-Doping Regulations require a separate regulation.
